

## Counting trees

- The circles show old trees
- ▲ The diamonds show young trees

This diagram shows trees in a plantation.  
The circles show old trees and the diamonds show young trees.

## Counting trees

The National Trust asks Tom to estimate how many trees there are of each type, but it would take too long for him to count them all, one-by-one.

- 1. Think of a method Tom could use to estimate the number of trees of each type. Explain the method fully**
- 2. Use your method to estimate the number of:**
  - (a) Old trees**
  - (b) Young trees**
